## Sultan "Food is the best Medicine"

---

In the field of medicine and nutrition Muslims also excelled with their system of botanical medicine and dietetics developed by 'IBN SINA', Prince of Physicians, known in the West as 'AVICENNA'. His book 'Canon of Medicine' is the most famous book in medical history and has maintained its authority for more than a thousand years. He has pioneered a system whereby emphasis is shifted from treatment to prevention and maintenance of health.

Inshallah, we trust you will receive pleasure from observing the different styles of Islamic ornamentation, food and our customary service.
